The Whitefish Bay School District

An Exceptional Place To Learn

PRESS RELEASE
School District of Whitefish Bay

Whitefish Bay School District Point of Pride

Whitefish Bay High School is Ranked #1 in the State and #61 in the United States by *Newsweek*.

August 22, 2016

Whitefish Bay High School is ranked #1 in the state of Wisconsin and #61 in the United States by *Newsweek*. The *Newsweek* High School Rankings assess schools based on a broad range of data to determine which high schools do the best job of preparing students for college. College acceptance and enrollment rates, Advanced Placement results, SAT & ACT participation and performance, dual enrollments and counselor-to-student ratios were data points used to determine school rankings.

Whitefish Bay High School Principal Amy Levek stated, "These rankings are a direct result of the collaborative effort of so many amazing individuals, from our hard-working staff members to our highly dedicated parents and our ambitious student body. It is a great source of pride for the community as a whole to be recognized for this shared effort."

District Administrator Dr. John W. Thomsen stated, "We are excited about this recognition for another year. This ranking reflects our school community values and commitment to high expectations in a supportive environment. This is an honor for the Whitefish Bay High School staff as well as all our schools and team members. We remain dedicated, through our 4K-8 efforts, to preparing students to participate in high school level learning and beyond upon entering 9th grade. Our collaborative efforts at our high school makes this recognition possible as well. The School District of Whitefish Bay continues to be *An Exceptional Place to Learn for All*."

Congratulations to Whitefish Bay High School and the entire School District Community for this achievement and recognition.
