^Note: Outlier score fluctuation is noted by ^ when any school or district report card has a 10-point or greater change (up or down) in its Overall Score. This amount of change in a single year is considered an outlier, and may or may not be reflective of actual school/district change in performance. Careful and cautious review of the report card and all supplemental pages is recommended. Notes

- Details on student achievement calculations can be found at <https://dpi.wi.gov/accountability/resources>.
- Student Achievement is based on Wisconsin Student Assessment System (WSAS) results for full academic year (FAY) students in all tested grades in the school.
- Scores are based on student performance on WSAS mathematics and English language arts statewide assessments.
- Points displayed in the tables above are weighted so that larger numbers of students and more recent years contribute more to the score for the Priority Area.

School Growth

Total Score: 67.0/100

The following growth scores are derived from a value-added model. Value-added growth estimates how much student scores are expected to change based on the actual growth of similar students. If the student's performance improved more than predicted by the model, we say her school had high value added. That is, the value the school's impact on student learning resulted in higher-than-predicted growth.

School Growth Supplemental Data

Group performance provided in the table below is for informational purposes only. Supplemental value-added scores are calculated when 10 or more students are included in a group.

Note: Counts will display for schools with 10-19 students in a group, but they are not included in scoring, as the cell size rule for report cards is 20 students or more.

Growth scoring requires at least two consecutive years of test scores. Up to four years of test data on three growth intervals are used in the calculation, when available, to improve the validity and reliability of value-added calculations.

Closing Gaps

Total Score: 85.6/100

Notes - Prior Three Pages

- Details on Closing Gaps calculations can be found at <https://dpi.wi.gov/accountability/resources>.
- Closing Graduation Gaps is based on graduation data from prior years because data from the most recent year are not yet available. For graduation calculations, prior-year data are the most current.
- The points-based proficiency rate is calculated by multiplying the number of students with scores in the advanced category by 1.5, proficient by 1.0, and basic by 0.5 and below basic by 0.0.
- The count of students for achievement calculations can be found in the Achievement Priority Area of the Report Card.
- If the group's average points-based proficiency rate or graduation rate is greater than or equal to 0.9, the rate of change is adjusted to be equal to the rate of change that would earn the maximum score for that group. This will be indicated on the report card by the symbol "!". This is to ensure that schools with very high achievement or graduation are not penalized with low Closing Gaps scores for small increases in gaps.
- In 2015-16 two new race/ethnicity categories were added: "Native Hawaiian or Other Pacific Islander" and "Two or More Races". Closing Achievement Gaps results for these categories will be calculated as data become available.
- Beginning on 2016-17 report cards, each subgroup included in Closing Gaps calculations is compared to its statewide comparison group using the same number of years of data. For example, if three years of data are available to determine the trend for the students with disabilities subgroup, three years of data are included in the statewide comparison group trend for students without disabilities.

About Supergroups

Supergroups are a way to look at closing gaps among groups of students that would ordinarily be too small to include. A supergroup is made up of all the students that belong to any of the groups in the supergroup:

- "All 3" Supergroup: students with disabilities and economically disadvantaged and limited English proficient students.
- "SwD-ECD" Supergroup: students with disabilities and economically disadvantaged students.
- "SwD-EL" Supergroup: students with disabilities and English Learners.
- "ECD-EL" Supergroup: economically disadvantaged students and English Learners.

A supergroup is used to evaluate Closing Gaps only when there are fewer than 20 students in each of the individual groups within the supergroup, but more than 20 students in the supergroup. For example, if a school had fewer than 20 students with disabilities and fewer than 20 economically disadvantaged students, but more than 20 students when those groups are combined, the "SwD-ECD" supergroup would be used to evaluate Closing Gaps. Students are not double-counted in a supergroup. In the example above, an economically disadvantaged student with a disability is only counted once in the supergroup.

Notes

- Details on On-Track and Postsecondary Readiness calculations can be found at <https://dpi.wi.gov/accountability/resources>
- Due to data availability, Attendance and Graduation data are lagged by one year. For this year's report cards, On-Track and Postsecondary Readiness calculations use these data from the prior school year.

Notes

- Details on On-Track and Postsecondary Readiness calculations can be found at <https://dpi.wi.gov/accountability/resources>.
- Third Grade English Language Arts and 8th Grade Mathematics Scores are determined in the same way as the Student Achievement Priority Area. However, if there are fewer than 20 students in the most recent year, then the most recent two years of data are combined so that the cell size requirement is met.
- Student achievement is based on Wisconsin Student Assessment System (WSAS) results for full academic year (FAY) students.
- Points displayed in the tables above are weighted so that larger numbers of students and more recent years contribute more to the score for the Priority Area.

Student Engagement Indicators

Goals Met: 2/2

All schools are expected to meet Student Engagement Indicator goals in these areas. Absenteeism Rate and Dropout Rate are not rounded. Absenteeism Rate is the percent of students who are chronically absent (absent at least 16% of the time).

Indicator	Goal	One-Year School Rate	Three-Year School Rate	Points Deducted
Absenteeism Rate	Less than 13%	0.6%	0.6%	0
Dropout Rate	Less than 6%	*	NA	0

Student Engagement Indicators Data

Group performance for Absenteeism Rate and Dropout Rate is provided below for informational purposes, to facilitate analysis of achievement gaps, and to drive continuous improvement planning. Test Participation data reflect the one-year test participation of groups. Note that there is no longer a score deduction associated with Test Participation on Report Cards.

Group	Absenteeism Rate				Dropout Rate				Test Participation Rate
