The Whitefish Bay School District

An Exceptional Place To Learn

June 27, 2018

Dear Whitefish Bay Families –

We are writing to provide you with an important update about the closure of Lubar Stadium at Whitefish Bay High School as we replace the artificial turf on the field and resurface the running track. For safety reasons, the entire stadium area will be closed for the duration of the project, which will begin after July 4, 2018. The anticipated completion date is July 27, 2018.

The turf project will continue to allow for the stadium field to serve its role as a multi-use space and will include markings for football and soccer, as well as lacrosse. The football field will feature NFHS required restraining lines that enhance the safety for those outside the field of play and will frame the field in a white border. Soccer lines will remain consistent and “unified” lacrosse lines will also be featured. The iconic BAY logo will be displayed at mid-field (the field design is on page #2).

While we understand access to our Stadium facilities may pose an inconvenience, we need to be assured of safe access for the use of our buildings and grounds. With students not in attendance, summer months offer an opportune time to provide contractor access for safe completion of these lengthy projects.

We look forward to seeing you again, once the project is completed and appreciate your understanding while we complete these renovations. If you have any questions, please feel free to contact our Buildings & Grounds office at 414.963.3962.

Sincerely,

Brian Chase
Director of Buildings & Grounds
Whitefish Bay School District
