

The Whitefish Bay School District

An Exceptional Place To Learn

PRESS RELEASE

School District of Whitefish Bay

Whitefish Bay School District Point of Pride

Whitefish Bay High School is Ranked #1 in the State and #194 in the United States by *U.S. News & World Report*.

April 20, 2016

Whitefish Bay High School is ranked #1 in the state of Wisconsin and #194 in the United States by *U.S. News & World Report*. The *U.S. News & World Report* High School Rankings assess schools based on a broad range of data to determine which high schools do the best job of preparing students for college. College enrollment rates, graduation rates, Advanced Placement results, ACT results, student attrition and counselor-to-student ratios were data points used to determine school rankings.

Whitefish Bay High School Principal Amy Levek stated, "This recognition is a wonderful celebration for a school community that so highly values the educational experience for their kids and a great point of celebration for our students who have worked diligently to maximize their K-12 academic opportunities."

District Administrator Dr. John W. Thomsen stated, "We are excited about this recognition. Maintaining high levels of expectations for all with appropriate support is paramount. This ranking reflects our school community values and commitment to high expectations in a supportive environment. This is an honor for the Whitefish Bay High School staff as well as all our schools and team members. The District remains dedicated, through our 4K-8 efforts, to preparing students to participate in high school level learning and beyond upon entering 9th grade. Our continued efforts at our high school makes this recognition possible as well. The School District of Whitefish Bay continues to be *An Exceptional Place to Learn for All*."

Congratulations to Whitefish Bay High School and the entire School District Community for this achievement and recognition.
