

The Whitefish Bay School District

An Exceptional Place To Learn

PRESS RELEASE

School District of Whitefish Bay

Whitefish Bay School District Point of Pride

Whitefish Bay High School is Ranked #30 in the United States by *Newsweek*.

August 20, 2015

Whitefish Bay High School is ranked #30 in the United States and leads the state as the top High School in Wisconsin by *Newsweek*. The *Newsweek* High School Rankings assess schools based on a broad range of data to determine which high schools do the best job of preparing students for college. College enrollment rates, graduation rates, Advanced Placement results, ACT results, student attrition and counselor-to-student ratios were data points used to determine school rankings.

District Administrator John Thomsen stated, "We are excited about this recognition. This ranking reflects our school community values and commitment to high expectations in a supportive environment. This is an honor for the Whitefish Bay High School team as well as all our schools and team members. Collectively the District is dedicated to preparing students to engage in high school level work and beyond upon entering 9th grade. The School District of Whitefish Bay continues to be *An Exceptional Place to Learn*."

Congratulations to Whitefish Bay High School and the entire School District Community for this achievement and recognition.
