Spring 2012

Dear Parents:

As part of registering and getting your child ready for school, the state of Wisconsin requires that the school has a copy of your child's immunizations on file. Enclosed in this letter is the Student Immunization Record form. Please fill in the dates of your child's immunizations and sign the bottom of the form. Children entering 4 year old kindergarten should have 4 DPTs, 3 Polios, 3 Hepatitis B, 1 MMR and 1 chickenpox (unless they have had the disease, then we need the date of the disease.)

The second form is the Kindergarten Health Examination Report. At your child's next doctor check up, please have the doctor complete and sign this two-sided form. The results from the vision and hearing tests performed by the doctor are used as the school's baseline for future screenings. If your physician does not perform hearing or vision screenings, please call me at 962-6648 to set up an appointment to have these tests done.

Both completed forms should be returned to your child's school. If they are completed, you are welcome to bring them to school with your registration papers. Otherwise, please mail or bring them to the school office prior to the first day of the 2012-13 school year.

Thank you for your cooperation in completing and returning these forms. Please call me with any questions

Sincerely,

Jackie Turkal, RN, BSN
School Health Coordinator
