

WELCOME TO K-CAMP EVERYBODY!

We are so happy to have you and your child join us for what is going to be another exciting year of camp! K-Camp is intentionally designed to provide children with experiences that support their development, challenge their minds, create lifelong friendships, and take them to new places around the community. Most importantly, it is meant to be fun! Every week, we will have a different theme with games, activities, and field trips centered around the topic.

We cannot wait to meet all our new campers and see some familiar faces. We have a lot of fun activities planned, so please take some time to explore all of the information listed in this e-pamphlet. Here, you will find answers to the most common questions parents have, including what you need to bring, where to go in the building, what field trips we are going on, and more!

Our program will be held in two rooms - room 112 and room 114. Each day, we will separate into smaller groups, so you will need to drop your child off in whichever room they have been assigned. If you have any questions or concerns before camp begins, please do not hesitate to email or call us.

We are looking forward to a sunny and fun-filled summer with you all!

-Ms. Makayla, Ms. Gentry, and the K-Camp Staff

# MEET OUR K-CAMP COORDINATORS!

## **Makayla Pesch - Camp Coordinator**

Hi! My name is Makayla - you might know me from Richard's Connects! I recently graduated from the University of Wisconsin-Madison with a Master in Public Affairs where I studied social and educational policy. I am so excited to be joining the K-Camp Team as Camp Coordinator to further my involvement with the wonderful students and community of Whitefish Bay!

## **Gentry Spore - Camp Coordinator**

Hello! My name is Gentry. I graduated from the University of Wisconsin - Milwaukee as an Elementary Education major. I've always loved working with kids so I am very excited for this new opportunity as K-Camp Coordinator to further my experience with the students and community, and to apply this to my own educational journey and classroom someday!
