

Medical Provider Sought for Human Growth and Development Instruction

In February 2017, the Whitefish Bay School District approved changes in the human growth and development (HGD) instruction based on the information provided by the Board established HGD advisory committee. The approved program change is to work with a medical provider to provide a portion of the human growth and instruction curriculum to our third through fifth grade students at both Cumberland and Richards Elementary Schools. The provider would also work with our current 6-12 health licensed staff to ensure we are providing medically accurate information in this area.

The Human Growth and Development course is in addition to the regular Health curriculum and is structured into three sections: Social and Emotional Development, Physical Growth and Development, Preventative Safety Behaviors.

Qualifications:

- Holds a medical license and/or is registered as a nurse, nurse practitioner, or physician
- Education or teaching experience preferred

Responsibilities:

- Deliver a 30-45 minute human growth and development lesson, to all District third graders at both elementary building and answer student questions (separated by identified gender) relating to the lesson
- Deliver a 30-45 minute human growth and development lesson, to all District fourth graders at both elementary building and answer student questions (separated by identified gender) relating to the lesson
- Deliver a 30-45 minute human growth and development lesson, to all District fifth graders at both elementary building and answer student questions (separated by identified gender) relating to the lesson
- Help district administration provide a parent information overview presentation, hosted during the day and in the evening
- Provide consultation services to our 6-12 Health educators in the area of Human Growth and Development (most likely through a scheduled meeting day and time)

If interested in this position, please contact Maria Kucharski, Director of Teaching and Learning, for an application, at Maria.Kucharski@wfbschools.com or (414) 963-3927, by May 1, 2017. Applications are also located on the District website www.wfbschools.com under the Teaching and Learning Services homepage.
