The Whitefish Bay School District

An Exceptional Place To Learn

Dear Whitefish Bay Families -

We are writing to provide you with upcoming pool closure information at Whitefish Bay High School. We plan to replace the roof on the pool section of the building, and for safety reasons, have determined that the area will need to be closed during the project. Both pools will be closed 6/10/17 - 7/16/17.

Because there will likely be dust and debris coming through the pool area ceiling, we'll need to have the pools drained or covered and the filtration system shut off, as well as air circulation equipment. This will help us to avoid potential damage to those systems and potential added maintenance and repair issues. Though the roofing project is not above the old pool, both pools share one filtration system, so it is not possible to run the old pool while the new pool is down.

While we understand use of our pool may play a large part in your summer planning, we need to make sure that we can provide safe access and use to building occupants. With summer months having the least amount of building traffic in general, and the length needed to complete the project, we feel that this is the best time to do this project.

We hope that our early communication provides you with the necessary time to make other arrangements for your summer water activities, but we look forward to seeing you again, once the area can be accessed safely.

We appreciate your understanding while we work through this project, and want to assure you that we will do our best to minimize inconveniences. If you have any questions, please feel free to call our Buildings & Grounds office at 963-3962.
