

Downloading SMART Notebook Software

1. Go to <http://smarttech.com/us/Support/Browse+Support/Download+Software>.

You want to look at the first section that says SMART Notebook collaborative learning software. Click on the box that says Choose a version. Your screen should look like the screen shot below.

2. Now you must choose which version of SMART Notebook you'd like to install. If you have a PC, choose the Windows version. If you have a Mac, choose the Mac version. If you run Linux, choose that version. Click on the version for your computer.

3. When you click on the version for your computer, you will come to a screen that looks like this. (I chose the Windows version for this demo.) Click the green Download button and follow the on-screen instructions to install the software.

4. On the next screen, you will need to fill in some information, including your first and last name, primary role (choose Education: Other), organization name (Cumberland School), organization type (K12 Primary Education Institution), address and phone info (use Cumberland's info), and email. For purchase decision timeframe, you can just choose not looking to purchase. If you don't want to receive email from SMART, then choose No for that question. Then click the blue Start Download button.

The screenshot shows the SMART website's registration page for the 'Education Software Installer for Windows'. The page has a blue header with the SMART logo and navigation links for 'United States', 'Solutions', 'Resources', 'Support', and 'About'. Below the header is a breadcrumb trail: 'Home > Support >'. The main content area is titled 'Education Software Installer for Windows' and contains a registration form. The form includes a link for '<< Product Info' and a section for '* Required Fields'. The fields are: First name *, Last name *, Primary Role * (dropdown menu with 'Please choose one'), Organization name *, Organization type * (dropdown menu with 'Please choose one'), City *, Country * (dropdown menu with 'United States'), Zip/Postal Code *, Province / State * (dropdown menu with 'Select region'), Work phone *, Email *, Purchase decision timeframe * (dropdown menu with 'Please choose one'), Do you have a preferred reseller? (checkbox), Reseller (text input), and a checkbox for 'I would like SMART to periodically e-mail me information about its products, services and related events.' with 'Yes' selected. A blue 'Start download' button is located at the bottom of the form, with a black arrow pointing to it from the left. Below the button is a privacy policy notice: 'SMART will never rent or sell your information to any other organization, and we will not send you any further correspondence without your prior consent. Read our entire privacy policy.' To the right of the form is a 'Search the knowledge base' section with a magnifying glass icon and a search input field with a 'Search' button.

5. You should arrive at a screen that looks like the one below. The download will probably start automatically, but if it doesn't, you may need to click on the blue Start download button again. You may get a message that pops up asking you whether you want to run or save the .exe file. If so, choose Run.

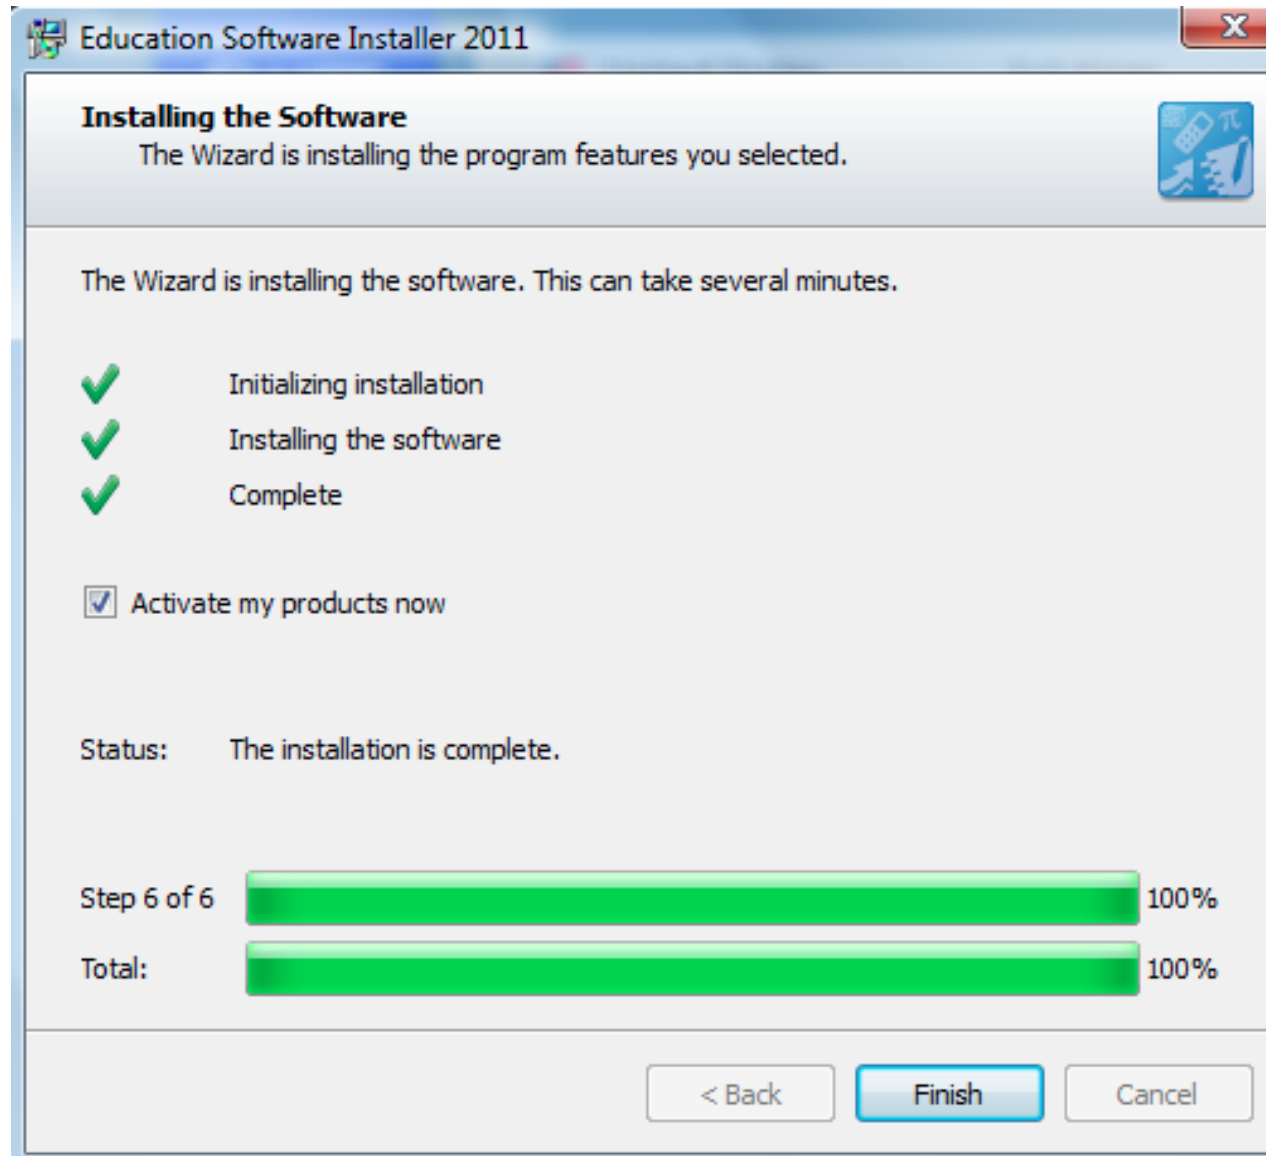

The screenshot shows the SMART website interface. At the top left is the SMART logo. To its right is a navigation bar with links for 'United States', 'Solutions', 'Resources', 'Support', and 'About'. Below the logo is a breadcrumb trail: 'Home > Support >'. The main content area features a white box titled 'Education Software Installer for Windows'. Inside this box, it says 'Thank you.' and 'Please Wait, click link below if required'. A prominent blue button labeled 'Start download' is centered in the box. A large black arrow points from the left towards this button. To the right of the main content is a 'Search the knowledge base' section with an icon of a magnifying glass over several document icons. Below this icon is a paragraph of text describing the knowledge base and a search input field with a 'Search' button. At the bottom of the page, there is a footer with a search bar, links for 'Terms', 'Training', 'Site map', 'Where to buy', and 'Contact us', and category links for 'Education', 'Business', and 'Government'. The copyright notice '© 2011 SMART Technologies | Legal' is centered at the very bottom.

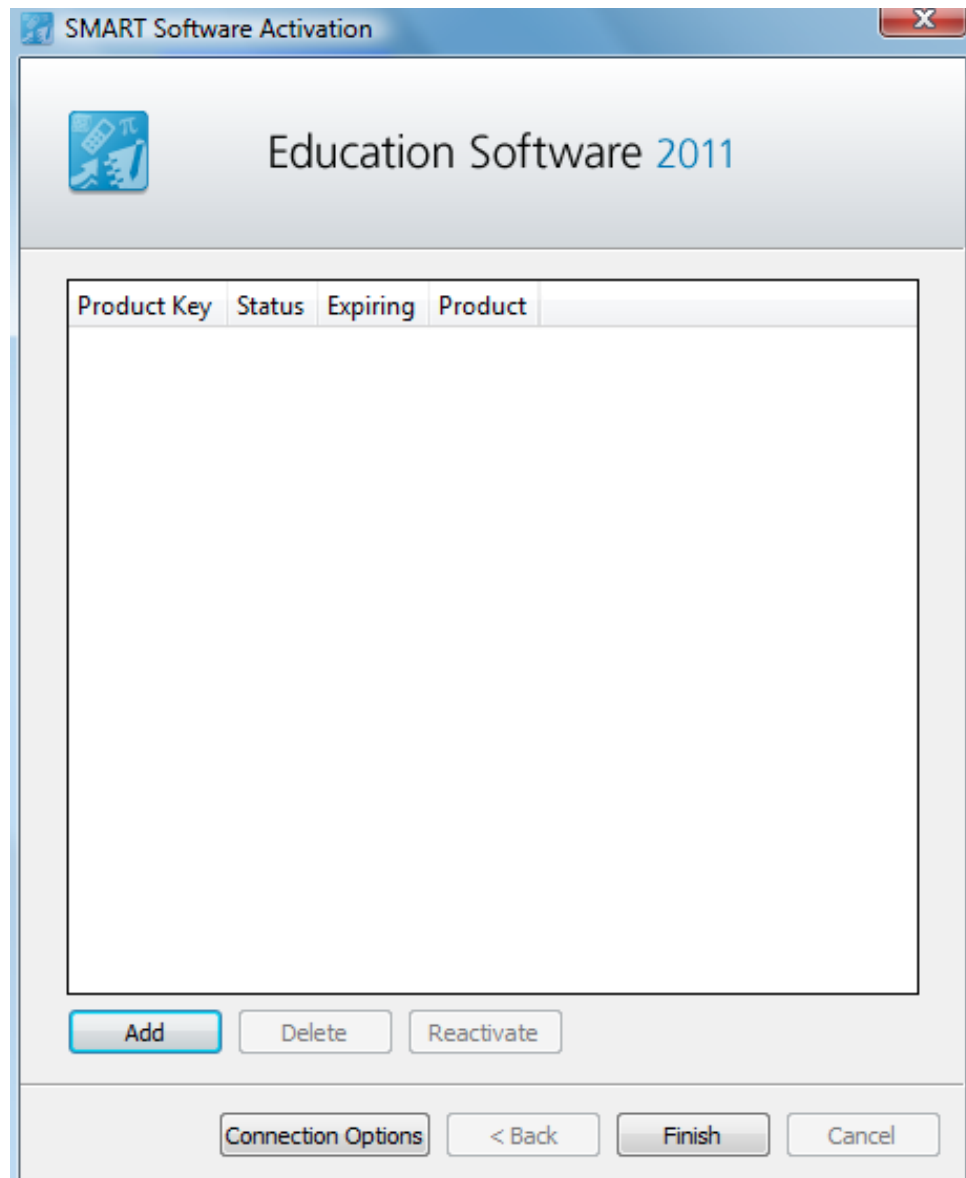

6. Follow the on-screen instructions to finish the download. Your computer's software installer should guide you through step by step. On the first screen, click Next. You will need to accept the terms of the license agreement on the second screen before clicking Next. On the third screen, choose where to install the software on your computer (probably where they chose for you) and click Next. On the fourth screen, check SMART Notebook and SMART Product Drivers and click Next. On the fifth screen, UNCHECK the two boxes and then click Next. On the sixth screen, leave all the boxes checked and click Next. On the seventh screen, if you'd like another language besides English choose it, but otherwise just click Next. On the eighth screen, click Install.

*****Note: It may take up to 30 minutes or more to download the software depending on your connection type and speed. Do not do anything while the software is installing. *****

7. When the download is complete, your screen should look like the one below. Click finish.

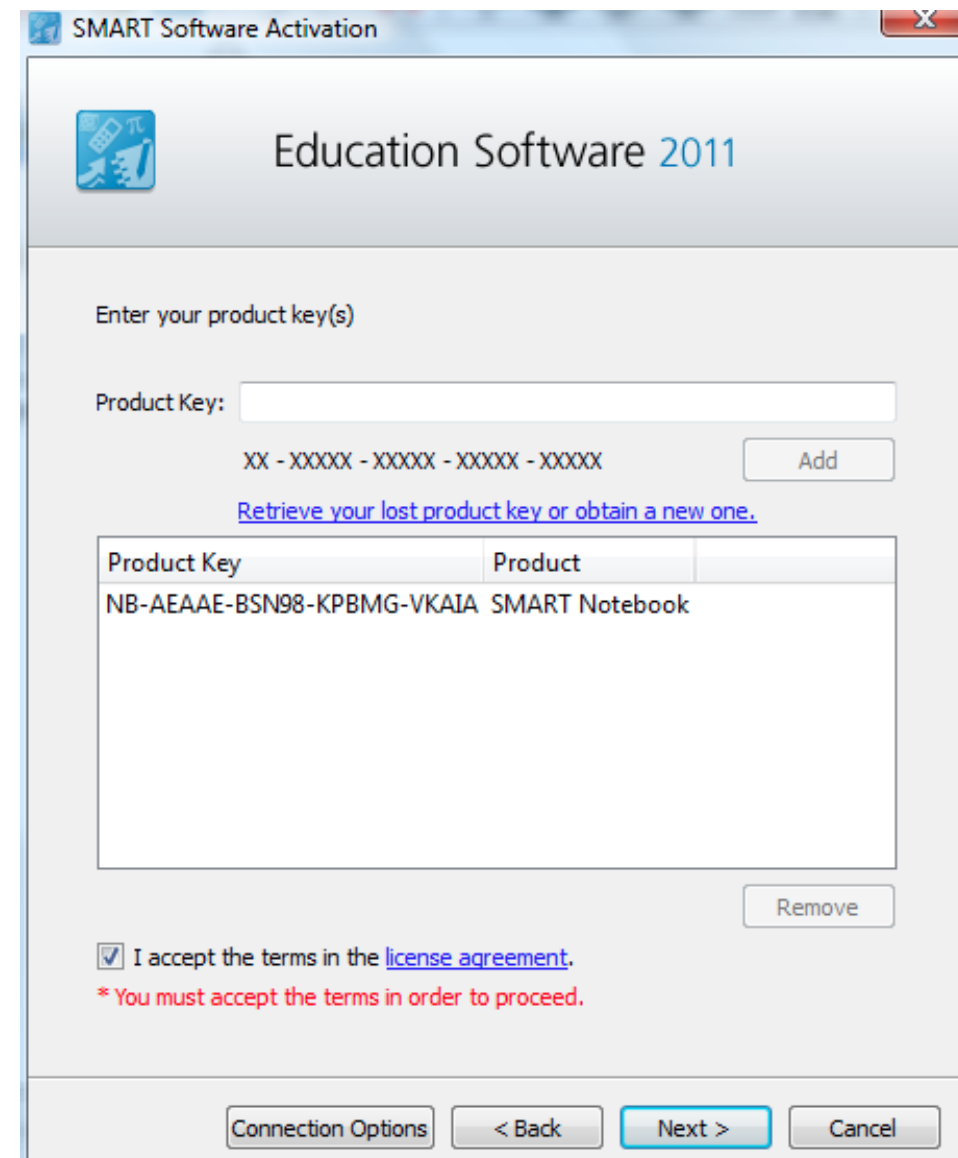

8. You will then see a box that prompts you to activate the software. If this box does not come up automatically after downloading, it should come up when you go to open SMART Notebook on your computer for the first time. Click Add.

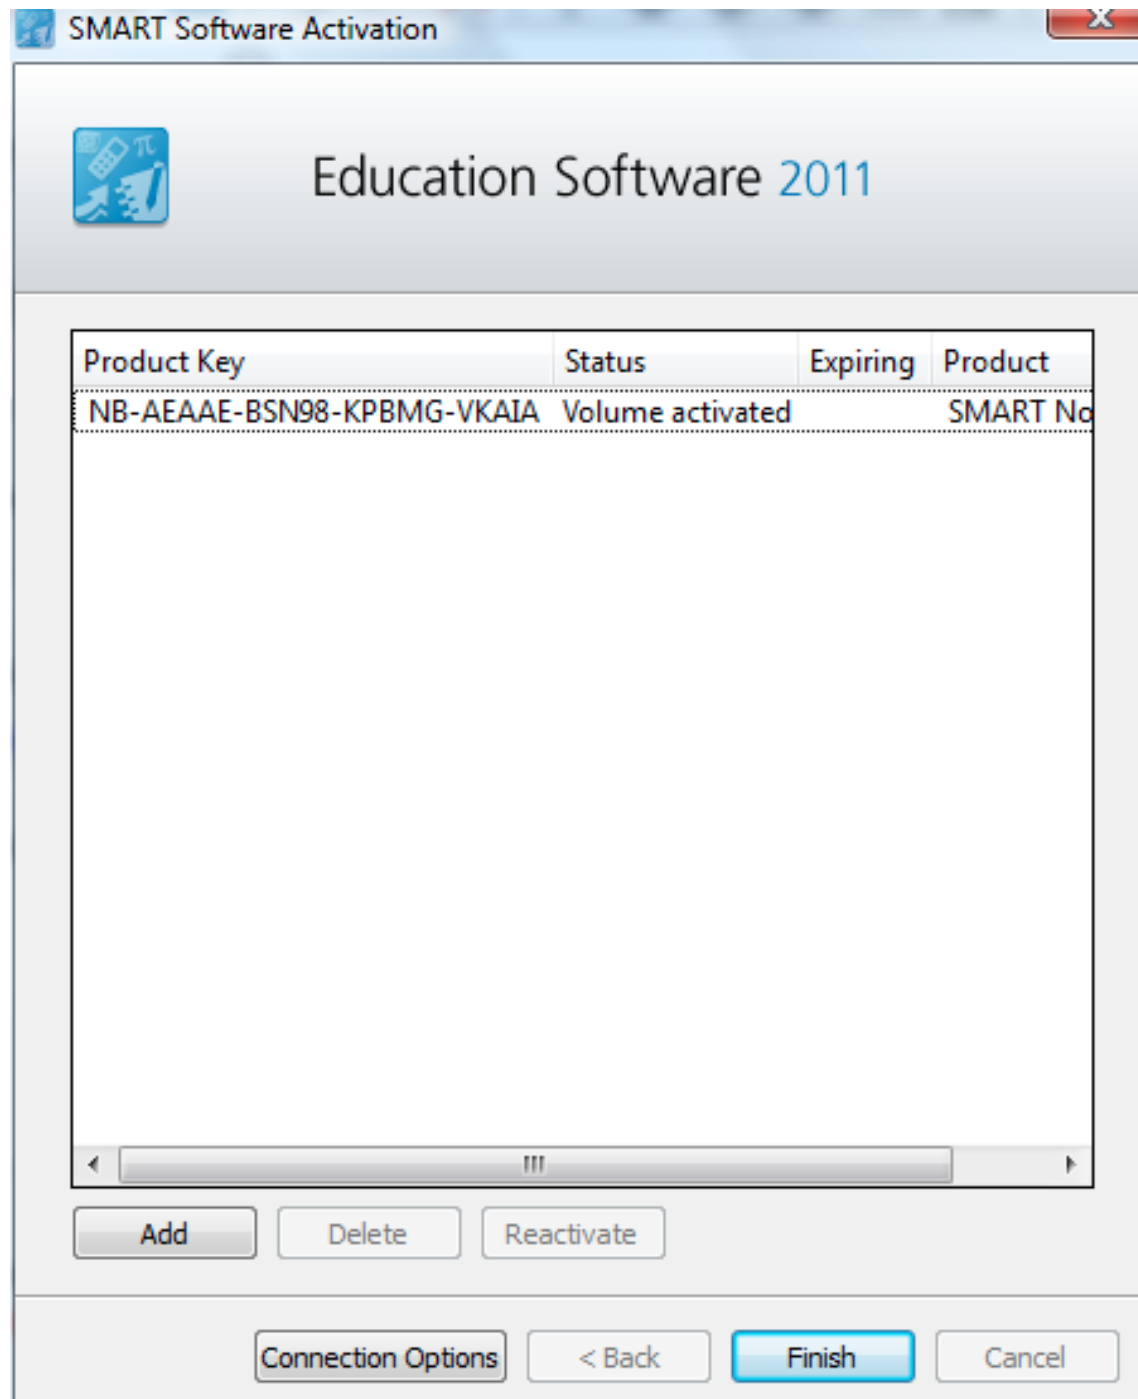

9. Now you will need to enter our Cumberland product key and click the Add button. Then the screen will look like the one below. Check the box that says you accept the license terms and click Next.

* The product key is shown below:
NB-AEAAE-BSN98-KPBMG-VKAIA.
The second to last letter is capital i.

10. Click Finish!

11. There will probably be a shortcut for SMART Notebook 10 on your desktop after the installation process. You can delete this if you'd like or use it to open the software. You can also find the software by going to your Start menu and Programs. It will be under the SMART Technologies folder.

Now you will be able to open the SMART Board files we email home and post on our web sites so your children can reinforce concepts they've learned in school at home with you!

Enjoy and please let us know if you have any trouble with this process so we can help get you all set up at home.
