

Chapter 12 -Equations and Functions

12.3 Solving Subtraction Equations Pages- 640-645

NOTES

Solving Equations Using the
Algebraic Process
(SUBTRACTION)

subtraction

$$\begin{aligned}y - 3 &= 7 \\y - \cancel{3} + \cancel{3} &= 7 + 3 \\y &= 7 + 3 \\y &= 10\end{aligned}$$

$$\begin{aligned}c - 10 &= 27 \\c - \cancel{10} + \cancel{10} &= 27 + 10 \\c &= 27 + 10 \\c &= 37\end{aligned}$$
