The recent tragic events in Broward County, FL, continue to be on the minds of our entire school community. Safety is a collective responsibility among all school community stakeholders. Providing a safe and secure learning environment for all students and staff is our top priority.

We are interested in providing our families an opportunity to better understand our current safety and security practices and share new ideas. We invite you to join us on March 21, 2018 from 5:30 to 6:30 for a District Presentation and Tabletop Discussions: Furthering a Culture of Safety in the Whitefish Bay Schools.

It is our hope that through engagement we will strengthen our shared understanding of current safety practices and stakeholder expectations in order to keep our children safe.
