

Parent Representatives Sought for Mathematics Renewal and Design Committee

Our district evaluates and improves every curricular subject area on a six to seven-year cycle through the work of curriculum review committees. Typically, one or two parents/community members serve on each committee. Beginning in fall 2019, the academic area of K – 12th grade mathematics will be reviewed.

Per School Board policy, interested parents/community members must apply to participate on curriculum renewal and design committees. Applications are reviewed by the Administrative Council. Parents/community representatives are selected based on the following criteria:

1. Training, interest, or experience in this area
2. Reasons for wanting to be on this committee
3. Ability to contribute to meeting the goals set forth in the committee's purpose

The time commitment for representatives will involve six - eight meetings a year. This committee is a multiple year committee (2-3 years).
