

Early-warning threat detection to help districts prevent school violence

Lightspeed Alert™ adds a critical layer of safety to your district's student safety plan with essential visibility and detection of threats of violence.

- Our patented AI technology and 24/7/365 human review work seamlessly together to analyze alerts and escalate imminent threats in real-time for appropriate intervention.
- Lightspeed Safety Specialists, with backgrounds in law enforcement, investigation, Secret Service training, and mental health, are further trained by both threat assessment and suicide prevention experts.

How it works

1 SOPHISTICATED AI SCANS FOR WARNING SIGNS

AI technology scans and flags concerning indicators and sends alerts to designated district safety staff as well as Lightspeed Safety Specialists.

2 SAFETY SPECIALISTS CONDUCT THREAT ASSESSMENT

Our 24/7/365 in-house team of highly trained safety specialists evaluate all alerts to identify cases of imminent threats to student safety.

3 ESCALATION RESPONSE

If a threat is deemed imminent, safety specialists immediately escalate to district safety personnel and/or law enforcement, alleviating districts from the need to monitor alerts 24/7 and enabling intervention before an incident occurs.
